Harry Potter and the Sorcerer's Stone

By J.K. Rowling

Harry Potter And The Cursed Child

Harry Potter's life is miserable. His parents are dead and he's stuck with his heartless relatives, who force him to live in a tiny closet under the stairs. But his fortune changes when he receives a letter that tells him the truth about himself: he's a wizard. A mysterious visitor rescues him from his relatives and takes him to his new home, Hogwarts School of Witchcraft and Wizardry.

Harry Potter And The Cursed Child Sf

After a lifetime of bottling up his magical powers, Harry finally feels like a normal kid. But even within the Wizarding community, he is special. He is the boy who lived: the only person to have ever survived a killing curse inflicted by the evil Lord Voldemort, who launched a brutal takeover of the Wizarding world, only to vanish after failing to kill Harry.

Harry Potter And The Goblet Of Fire

Though Harry's first year at Hogwarts is the best of his life, not everything is perfect. There is a dangerous secret object hidden within the castle walls, and Harry believes it's his responsibility to prevent it from falling into evil hands. But doing so will bring him into contact with forces more terrifying than he ever could have imagined.

Harry Potter And The Chamber Of Secrets

Full of sympathetic characters, wildly imaginative situations, and countless exciting details, the first installment in the series assembles an unforgettable magical world and sets the stage for many high-stakes adventures to come.

Can you hear me screaming?

As expected, the illustrations brought this book to a whole new level. I legitimately want to buy another copy, solely to take it apart and frame it.

Each page is just bursting with new life. Honestly, how could you not love such beautiful images?

I think at this point, everyone and their great-great-grandmother has heard of this book.

Harry Potter, orphaned before he was one, was sent to live with his Aunt Petunia and Uncle Vernon. He was always a bit of an odd child - Can you hear me screaming?

Each page is just bursting with new life. Honestly, how could you not love such beautiful images?

I think at this point, everyone and their great-great-grandmother has heard of this book.

Harry Potter, orphaned before he was one, was sent to live with his Aunt Petunia and Uncle Vernon. He was always a bit of an odd child - much to his family's dismay.

Things just... happened ...around him. Like when he was running from bullies and jumped to the school roof. Or when he got an atrocious haircut (courtesy of Aunt Petunia) and all of his hair grew back in a single night.

On his eleventh birthday, a letter comes to him and a whole new world opens in front of his eyes.

In short - I LOVED THIS ONE. I thought I loved the Harry Potter books when I first read them, but when I bought the illustrated version...well, that love instantly quadrupled.

The fully illustrated Philosopher's Stone still has all the wonder and amazement as the boy-turned-wizard embarks on a harrowing 7-book-adventure and the illustrations bring a whole new dimension.

Harry Potter and the Sorcerer's Stone

Seriously, I can't emphasize enough how much I love this book. Just look at these images - they're magnificent:

Hogwarts, Hogwarts. Hoggy Hoggy warty warts.

Ahh! Just look at sad, tiny Harry. Don't worry kid - life will get better! Not only are these full-color, high quality images but there are so many of them.

Often, illustrated books have a picture here or there but not HP. There's pages and pages of pictures like this - and often the pages without full-sized images will have a small illustrations here and there between the large ones.

Words cannot express how highly I recommend this one. If you haven't read HP recently...I strongly urge you to check out this book.

Harry Potter And The Half Blood Prince

I'm going to keep this brief since there isn't much to say that hasn't already been said. *clears throat* I think the reason I waited so long to read this series is because I just couldn't imagine myself enjoying reading about an eleven-year-old boy and his adventures at a school of wizardry. I thought it would be too juvenile for my taste. I was wrong, of course.

I can honestly say that I loved every minute of this. It's a spectacular little romp with funny, courageous, and endearing characters that you can't help but love. I'm going to keep this brief since there isn't much to say that hasn't already been said. *clears throat*

I think the reason I waited so long to read this series is because I just couldn't imagine myself enjoying reading about an eleven-year-old boy and his adventures at a school of wizardry. I thought it would be too juvenile for my taste. I was wrong, of course.

I can honestly say that I loved every minute of this. It's a spectacular little romp with funny, courageous, and endearing characters that you can't help but love.

It has talking chess pieces, singing hats, a giant three-headed dog named Fluffy, a hilarious giant with a dragon fetish, a master wizard that's just a little bit crazy, mail carrier owls, goblins running a bank, unicorns, centaurs(!), trolls . . . and probably much more that I'm forgetting.

And then there's the lead characters: Hermione, the young scholar who starts out prim and up-tight but soon becomes a true friend; Ron, the boy who has little money but who has an abundance of family and loyalty to his friends to make up for it; and then there's Harry, the boy who starts out sleeping in a closet and ends up being a hero. Harry is kind to those that deserve it, fearless when it counts the most, and wonderfully intelligent. What's not to love?

In regards to the ending: (view spoiler)[I feel silly saying this about a middle grade novel, but I didn't suspect Quirrell a bit! If there were hints that he was the true culprit and not Snape, I obviously missed them. (hide spoiler)]

FAVORITE QUOTE: "But from that moment on, Hermione Granger became their friend. There are some things you can't share without ending up liking each other, and knocking out a twelve-foot mountain troll is one of them."

Now, if you'll excuse me, I'm off to start Harry Potter and the Chamber of Secrets.

My reviews of other titles in this series:

Harry Potter and the Chamber of Secrets ...more

My original review was a comparison of sorts between Harry Potter and Twilight. However, this is stupid as the two are incomparable. Honestly, its not even worth discussing. Its not just that Twilight doesn't

Harry Potter and the Sorcerer's Stone

come close, it is the fact that Harry Potter transcends other similar works. Its peerless. To quote Samuel L. Jackson in Pulp Fiction: It "ain't the same fuckin' ballpark, it ain't the same league, it ain't even the same fuckin' sport."

There was a day when I thought I needed to defend Harry Potter. My original review was a comparison of sorts between Harry Potter and Twilight. However, this is stupid as the two are incomparable. Honestly, its not even worth discussing. Its not just that Twilight doesn't come close, it is the fact that Harry Potter transcends other similar works. Its peerless. To quote Samuel L. Jackson in Pulp Fiction: It "ain't the same fuckin' ballpark, it ain't the same league, it ain't even the same fuckin' sport."

There was a day when I thought I needed to defend Harry Potter, in the midst of the now dead Twilight craze, and you can see that below in what was my original review. It is a testament to the power of this series, that while various other franchises (Twilight, Hunger Games) have surged into popularity and then faded, Harry Potter remains unwaveringly strong after nineteen years. It is clear readers hold just as much admiration for these books as they always have. Time has not dimmed that. I will, one day, write an essay about what these books mean to me. Eternal, this is the one that started it all.

Original review (circa 2010)

A note in regard to the on-going Potter vs Twilight debate:

Go ahead, tell me Twilight is better.

Tell me that James is scarier than Voldemort,

That the Cullens are a better family than the Weasley's

That Edward is cooler than Harry,

and Bella is smarter than Hermione.

Tell me that Stephenie Meyer is more talented than J.K. Rowling.

Go ahead,

I dare you.

Those who think the topic of Harry Potter or Twilight is worth debating and arguing over, are utterly stupid.

Quite frankly-this book is amazing. ...more

Harry Potter And The Deathly Hallows

Rereading for the 3rd time for the group read.

Once upon a time, there was a 10th grader named Khanh who didn't get along with people very well. She wasn't an outcast in school, and all the bullying and teasing stopped with the commencement of high school, but she had always been a bookworm and has generally preferred the company of her own thoughts.

Lunchtime had always been dedicated not to eating, but to sitting in the library, browsing through books.

(Not to worry, she got her nutrition in 5th Rereading for the 3rd time for the group read.

She wasn't an outcast in school, and all the bullying and teasing stopped with the commencement of high school, but she had always been a bookworm and has generally preferred the company of her own thoughts.

Lunchtime had always been dedicated not to eating, but to sitting in the library, browsing through books.

(Not to worry, she got her nutrition in 5th period in the form of a giant 6-inch M&M studded cookie and a package of Sour Patch Kids and/or a package of Reese's Pieces. Ah, the effortless metabolism of youth.)

One day, there were shiny new books on her school library's "New Releases" shelf. Harry Potter, books 1 through 3. She had heard of the books before, of course, since they were a constant presence on the NYT bestsellers list, but she had always avoided them, thinking of them as children's novels.

At the grand age of 14, surely she was too old for a little kid's fantasy novel. She had read the Outlander series earlier that year, after all. And it had sex in it. SEX! She didn't really quite understand everything in the book, but the point is, she had read them. Surely, at 14, Khanh was ready for more mature novels.

And that did not include Harry Potter. Harry Potter is 11. Khanh is 14. There is a vast difference in their ages. Khanh was a teenager, dammit.

Harry Potter and the Sorcerer's Stone

But the Harry Potter books were new. Brand new. They were shiny, they had never been touched by another reader. And Khanh was tempted.

She picked up the first book in the series: Harry Potter and the Sorcerer's Stone.

The end.

Or rather, the beginning. ...more

I'm on page 27. I can already tell this is going to be a big hit someday. Everyone take note of this author. He's going places.

Couldn't find him on Twitter, though. Wanted to tell him how great I thought page 23 was.

Harry Potter And The Prisoner Of Azkaban

Why the heck did I not read Harry Potter before now...its flipping magical (literally)!

I've FINALLY read a Harry Potter book!!!

(Watch my review here): <https://youtu.be/oUZ0EMsggSk>

Harry Potter And The Order Of The Phoenix

I will never ever rate this lower than 5 stars. BEAUTIFUL.

This is a disgrace to all pure bloods. My head looked quite dashing on that strange professor's head.. If only I could have extended my stay. Harry Potter.. This is not over yet.

Harry Potter And The Cursed Child Movie

There are no words to do this book justice.

One of my first jobs was at a bookstore. When I was a kid my Mom would take me to the mall and I would spend tons of time hanging out at Waldenbooks (who here remembers Waldenbooks?) Right when I became legally old enough to work, I went in and submitted my application and a few weeks later I was selling literature to the masses.

Why do I tell you this story on this review, you ask? Well, at the time, young adult/teen literature consisted mainly of RL Stein, Christopher Pike, Beverly Cleary, Judy Blume, and a few other classic Newberry Award winners, but certainly we did not have a YA section to the extent you see it today.

Towards the end of my tenure at Waldenbooks - as Oprah's book club was hitting its stride and Men Are From Mars, Women Are From Venus was in its bazzilionth week on the New York Times best seller list - a book display arrived featuring a buzzy new title about a certain boy wizard. I remember the display at the front of the store, and selling a few copies, but I didn't realize what it would become.

A few years later (early 2000s), I had kinda gotten out of the loop on what was big in books. I had just finished college, which had taken up most of my free reading time. A friend of mine named Bronco (yup, real name, not a nickname, who also was the Best Man at my wedding) had a copy of this book on his coffee table. Holy cow! Here is that same book we were selling at Waldenbooks about 5 years before - what was he doing with it!?

Well, he said it was good, so I borrowed it. I quickly plowed through the first 4 books and then got the pleasure of joining the world in waiting for the release of Order of the Phoenix. And, I noticed when I went to the bookstore, the YA section and selection was not so small anymore. I truly believe it was Harry Potter that opened the door to get more young adults (and even adults, of course) reading and authors interested in writing for that genre. ...more

Harry Potter and the Sorcerer's Stone

Harry Potter And The Sorcerer's Stone

Review for Illustrated Edition

Perfect. Duh.

Re-Read in December 2014 for Harry Christmas To You

OH LORDY. Every time I read this book it brings back so many memories, and also gets me excited to read the rest of the series again as well because there is so much foreshadowing!!

For example:

- Sirius Black is casually mentioned in the first chapter
- Mrs. Figg is talked about a bit, as she looks after Harry from time to time (or all the time, ayyyy?)
- it always cracks me up when Hagrid says you'd have [Review for Illustrated Edition](#)

For example:

- Sirius Black is casually mentioned in the first chapter
- Mrs. Figg is talked about a bit, as she looks after Harry from time to time (or all the time, ayyyy?)
- it always cracks me up when Hagrid says you'd have to be mad to try and rob Gringotts... Damn crazy kids.

Also here was a line in Dumbledore's chocolate frog card bio that said AND I QUOTE, "Professor Dumbledore enjoys chamber music and tenpin bowling." HAHAAAAHA WHAT EVEN. NOW I'M IMAGINING HIM BOWLING DRAMATICALLY TO CHAMBER MUSIC.

Rowling is the queen forever and always.

Re-Read in July 2012

GINNY'S FANGIRLING IN THIS BOOK IS JUST TOO GOOD.

Also, the Dursleys aren't as bad as people think they are, because after all, they DID pick Harry up at the end of the year rather than just abandoning him. So THAT'S worth something.

Harry Potter and the Sorcerer's Stone

mmmm, this book smells so good. It's good to be back. ...more
