The Harry Potter Collection

By J.K. Rowling

The Harry Potter Series

Six years of magic, adventure, and mystery make this paperback collection the perfect gift for Harry Potter fans of all ages.

The Harry Potter Test

Follow Harry from his first days at Hogwarts School for Witchcraft and Wizardry, through his many adventures with Hermione and Ron, to his confrontations with rival Draco Malfoy and the dreaded Professor Snape. From a dangerous descent into the Chamber of Secrets to the Triwizard Tournament to the return of He-Who-Must-Not-Be-Named, each adventure is more riveting and exhilarating than its predecessor, and now all six books are available together for the first time in a

The Harry Potter Shop

I do not own this spiffy box set of Harry Potter books, but no way was I going to sit down and input all 6 of them!! When we were in the UK on our honeymoon in the spring of 2000, Harry Potter fever was just hitting its stride there. Not long after that the books found their way to Canada and I fell in love with this series right from the first book. Again (I'm a broken record) great characters and time-old literary themes, as well as just being a very enjoyable read. I haven't gone to see the movies, because I don't want the characters in my mind replaced with British teen actors and Gary Oldman. (can't stand Gary Oldman.)

Fantastic read for any age. Some of my all-time favourite literary characters are from this series, like Dumbledore and Sirius Black. The books get heavier (literally and metaphorically) as the series progresses. The first book is the most child-like, shorter and lighter fare. The last book is downright philosophical and practically qualifies as a doorstop it's so weighty. The HP series is kind of like literary comfort food around here, if there's nothing else to read we'll just grab one and dive in. A definite must-read! ...more

I loved these books. I never got into them at the same time the world went into its "Harry Potter Rage", but I couldn't help but give them a once over before I judged those people. They were right, in the end. The author gives us a parallel world where, once again, you can't help but hope it is as real as you or me. Set mostly in a school that, dare I say, every person who read the books wished their parents had sent them when they were little, the story seems to captivate with mysterious spells, strange people, and all around "what happens next!?-ness). The main cast is made up of 3 characters who bounce information, hilarity, and small jabs of honesty and cruelty at each other. What makes it more interesting is the fact that these kids go to school while doing the exact things that could get them kicked out in order to progress the story. I am not a Harry Potter fanatic, however. I do not wear "Muggle" shirts or have a wand. And yet, the depth of the story is very obliging to what I really wanted in a book. For a small while, it made me a child again. You will not regret this read. ...more

The Harry Potter Houses

Absolutely loved this story and these characters. My favorite was Goblet of Fire.

Great books-(and number 7!) I would only say that the plot is very similar to The Lord of the Rings(the ring has to be destroyed, so do the horcruxes), as are some of the characters:

Gimli ----> hagrid

Dumbledore ----> gandalf

Anyway, they are excellent books, very inspirational. A new world has been created!

The Harry Potter Movies

How good is this book? SO good I've read the whole series about 7 times! :) I love J.K. Rowling.

AMAZING!

The Harry Potter Movies In Order

I listened to all them as audiobooks! I was sorry I had waited so long to "read" them at all.

Harry Potter is regarded as one of the best and most influential pieces of fiction ever to be written. I have no choice but to agree. This series sparked my love for reading and fantasy, which I am every grateful for. A review of content and themes is completely unnecessary, as virtually the entire population of the United States of America is knowledgeable of that content. However, I will say one thing: if you do not read Harry Potter in your lifetime, then you have failed as a reader. The Harry Potter Alliance

This morning, I was pondering what to read or listen to next. I thought of these books, which I devoured eons ago. I remembered how much I loved them. Having seven credits on Audible to play with, I thought that it would be nice to have this series in my collection. I'm in Canada, so the entire series is narrated by Jim Dale. It's wonderful, so far. I've given it five stars. :)

The world of Harry Potter is filled with things that just don't add up, at some point this floating pile just starts degrading the creative merits and prevents any further enhancement of the reader's world perception.

I'm not talking about credibility, obviously, but the painfully failing synergy between the fantastic elements. And THEN come the legion of fans who step up and try to fix this profoundly feeble work. Pathetic.

I enjoyed the book for its worth but this "phenomenon" drives me up the wall. I only hope these people's new-found enthusiasm for the genre spills quickly from this shallow cup into goblets of truer fire. ...more

The Harry Potter Rap

Though it's become quite a "scene" thing to read, or to not read, it's beautifully written and original. I cannot wait for the last installment.

This book is god's gift to readers !!! i dont need to write a review about this book for ppl to know about its greatness

CLOSING STATEMENT :HARRY POTTER ROX !!!!

The Harry Potter Quiz

The best series I have ever read.

Harry potter is hero, he have a brain and self confident every thing that he done.I also go to the Movie for Harry Potter.

The Harry Potter House Quiz

Classics, everyone, of all ages, should read these books

I have read and re-read the Harry Potter series more times than I can remember. The fun increased when I listened to the Audiobook read by Stephen Fry... that was something else entirely. Just epic.
