

The background features a complex network of white nodes connected by thin purple lines, set against a gradient background that transitions from dark purple at the top to a bright pink at the bottom. The nodes are scattered across the frame, with some forming distinct geometric shapes like triangles and polygons. The overall aesthetic is modern and digital.

Nothing But Trouble Lyrics

Another great one by Elise Noble!

Elise has done it again! I wasn't sure what to expect from Hollywood's bad boy, but Elise made me love him. And Ella is just a fantastic character. There isn't as much suspense in this book, but it is still there.

A shy, klutzy girl with an adventure list, horses and a hot guy! what could go wrong?

Ella, a foster kid who had finally found a family with Edith, her surrogate grandma, has a terrible job for a horrible boss. When Edith dies, Ella discovers she is the beneficiary of Edith's estate, but only if she completes a bucket list of 15 adventurous things within a year's time, at Edith's request. Sounds simple, right?!? Not for Ella who is mostly a klutzy hermit who much prefers time on her couch to socializing. Not for Ella who is mostly a klutzy hermit who much prefers time on her couch to socializing or doing anything active, but she bravely tries her best at conquering Edith's list.

After a terrible date with a guy who becomes a sort-of stalker and her ex, who she dumped after finding out that he cheated on her, start showing up at her door and texting her at all hours, Ella decides to go to Linden Hollows to learn how to ride a horse so she can complete one item on her list - compete in a dressage competition. Her one-on-one trainer, Connor, has the looks of a Greek God, but is very off putting at first. However, neither Ella nor Connor can deny the sparks between them. Is it their love for Linden Hollows or something more that gets stirred up?

Will Ella complete Edith's adventure list within a year and get Edith's house, the only house she has every considered home? Is Connor just a gorgeous face or is there a decent human being underneath? Can Ella survive her time at Linden Hollow with two mean, spoiled princesses?

This book is fun, funny, sexy and enthralling. It is a hard-to-put-down / just-one-more-chapter type of book! I lost sleep reading this book! Hurray to Elise for throwing in so many plot twists that I didn't see coming. Elise is a horse enthusiast and her knowledge and love of horses comes shining through in this book!

Nothing but a Trouble is Book 2 in the Trouble Series, but can be read as a standalone. There are characters from the other books that make appearances and make this book even more fun to read! NBT is a full-length novel with a HEA and no cliffhanger. Loved this book!!! ...more

The title to this delightful story should give you an idea of how trouble follows Ella around. In the beginning, I was intrigued with the challenges that it looked like she would have to face. I laughed so hard that I cried at some of her experiences with "The Uglies" and the Vajazzle! There was some suspense in this as well. Better and Better!

This story just kept getting richer and more entertaining as I read! As the characters reveal more about themselves I found myself liking them more and more. The many events in this story of one sheltered young woman's attempts at becoming more "adventurous" in life range from familiar and relatable to deliciously fantastic. And all of it is grounded, believable, and compelling. Every time I had to put the book down to do real life stuff, I could not wait to get back to Ella and Better and Better!

Ella represents completely the name of her book - she is Nothing but Trouble! Although definitely in a good way. She makes you laugh so hard you cry a little, and Connor is exactly what she needed. I love how they complement each other, how every time Ella goes through something Connor is right there to help her out and show her that a little trouble is not always a bad thing and can lead to great things (although the car lessons could've gone better).

Cute and Quirky

This book and Ella definitely kept me laughing. I really enjoyed this book and seeing the different relationships with the secondary characters that both Ella and Connor had. I would definitely recommend this book!
