Color Management Service & Support Solutions | X-Rite X-Rite keeps your color management systems performing at their maximum potential. Contact for service assistance or for support finding the best product. Infrared photography - Wikipedia History. Until the early 20th century, infrared photography was not possible because silver halide emulsions are not sensitive to longer wavelengths than that of blue light (and to a lesser extent, green light) without the addition of a dye to act as a color sensitizer. The first infrared photographs (as distinct from spectrographs) to be published appeared in the February 1910 edition of The.
